

Happy New School! Please take a moment to read some important parking/traffic updates.

As most of you are aware, the traffic pattern for the front parking lot prohibits left turns from NW 18th Street. A sign is posted on NW 18th Street which prohibits left turns into the front parking lot. Therefore, all traffic must enter the front parking lot from the east side of the school. Please review the traffic pattern map below for further information.

Additionally, this year the east parking lot next to our Kindergarten building will have to be utilized exclusively for staff parking. This lot will be locked each day from 7:30 a.m. until 3:00 p.m. This is a result of the loss of parking spaces in the back of our school. As a means of helping with the transition, the large field will be opened for special occasions and during the first week of school. A staff member will be assigned to allow parents to enter the field and park their cars during arrival and dismissal. Once the first week is complete, we will reevaluate the parking/traffic situation.

We thank you for your cooperation and support during this transition aimed at improving safety in the community.
